

# Avid Certified Media Composer Course Outlines

## 101 Fundamentals Course (2 Days)

<b>Introduction.....</b>	<b>.....</b>
<b>Lesson 1: Introduction to Media Composer .....</b>	<b>.....</b>
Launching Media Composer .....	2
Understanding the Select Project Window .....	3
Learning the Interface.....	4
Working with Bins.....	8
Creating a New User Profile and Changing User Profiles .....	12
Personalizing the Application.....	13
<b>Exercise 1: Setting Up .....</b>	<b>23</b>
Exercise 1.1: Opening a Project and Creating a New User Profile.....	24
Exercise 1.2: Organizing the Project.....	25
Exercise 1.3: Adjusting Settings .....	28
<b>Lesson 2: Getting Started .....</b>	<b>31</b>
Creating a New Project.....	32
Setting Up Your Project .....	35
How to Input Video and Audio Clips .....	39
Importing Media Files.....	44
Preparing to Edit .....	48
Saving Your Work.....	55
Review/Discussion Questions.....	56
<b>Exercise 2: Ingest .....</b>	<b>57</b>
Exercise 2.1: Create and Setup a New Project .....	58
Exercise 2.3: Setting up to View Your Shots.....	60
Exercise 2.4: Viewing Your Clips .....	61
Exercise 2.5: Saving Your Work.....	62
<b>Lesson 3: Building Your Sequence .....</b>	<b>63</b>
Overview .....	64
Creating a New Sequence.....	65
Working with Tracks.....	66
Locating Audio Cues .....	68
Building Your Sequence with Splice-In .....	70
Editing with Overwrite.....	73
Removing Material from a Sequence.....	74

Essential Tools.....	75
Review/Discussion Questions.....	78
<b>Exercise 3: Rough Cut Your Scene .....</b>	<b>81</b>
Exercise 3.1: Laying the Foundation of Your Sequence .....	82
Exercise 3.2: Add Action Shots.....	85
Exercise 3.3: Add the Talking Head .....	86
Exercise 3.4: Remove Unwanted Material .....	87
<b>Lesson 4: Drag-and-Drop Editing in Segment Mode .....</b>	<b>89</b>
Understanding the Smart Tool.....	90
Building a Montage with Drag-and-Drop .....	92
Adding Narration with Drag-and -Drop Overwrite .....	96
Editing Audio in the Sequence.....	97
Review/Discussion Questions.....	101
<b>Exercise 4: Building a Montage with Segment Mode.....</b>	<b>103</b>
Exercise 4.1: Building a Montage with Segment Mode .....	104
Exercise 4.2: Add Narration.....	106
Exercise 4.3: Adjust Sequence Audio.....	107
<b>Lesson 5: Refining the Sequence.....</b>	<b>109</b>
Moving Segments in the Timeline .....	110
Changing Shots in the Sequence .....	115
Deleting from the Timeline .....	117
Changing the Length of Timeline Segments .....	119
Exploring Trim Mode .....	124
Useful Tools .....	128
Review/Discussion Questions.....	131
<b>Exercise 5: Refining Your Sequence .....</b>	<b>133</b>
Exercise 5.1: Reorder shots in the Montage .....	134
Exercise 5.2: Working on the Narration in the Montage .....	135
Exercise 5.3: Trimming the Montage .....	136
Exercise 5.4: Combining Trim and Segment Moves to Refine the Opening.....	137
<b>Lesson 6: Introduction to Transition Effects .....</b>	<b>139</b>
Creating Transition Effects .....	140
Modifying Transition Effects in the Timeline .....	144
Accessing Effects from the Effect Palette .....	147
Modifying Effects in Effect Mode .....	148
Creating Audio Crossfades .....	151
Review/Discussion Questions.....	154

<b>Exercise 6: Applying Transition Effects .....</b>	<b>155</b>
Exercise 6.1: Apply Quick Transition Effects .....	156
Exercise 6.2: Replace a Transition .....	157
Exercise 6.3: Modify and Save Effects .....	158
Exercise 6.4: Create Audio Crossfades.....	160
<b>Lesson 7: Introduction to Segment Effects .....</b>	<b>163</b>
Adding Segment Effects.....	164
Stabilizing Shaky Footage.....	166
Using Automatic Color Correction to Improve the Footage .....	169
Hiding Jump Cuts with FluidMorph.....	173
Resizing a Shot.....	175
Using Standard Keyframes .....	176
Review/Discussion Questions.....	178
<b>Exercise 7: Making Corrections to Shots.....</b>	<b>181</b>
Exercise 7.1: Flop a Shot.....	182
Exercise 7.2: Use the Different Types of Stabilization .....	183
Exercise 7.3: Using Automatic Color Corrections .....	185
Exercise 7.4: Hide Jump Cuts with Fluid Morph .....	186
Exercise 7.5: Resize a Shot and Animate .....	187
<b>Lesson 8: Combining Multiple Effects .....</b>	<b>189</b>
Nesting Effects.....	190
Changing the Order of Nested Effects .....	194
Review/Discussion Questions.....	195
<b>Exercise 8: Nesting Effects .....</b>	<b>197</b>
Exercise 8.1: Nesting Effects.....	198
Exercise 8.2 Rearranging the Order of Nested Effects.....	200
<b>Lesson 9: Freeze Frames and Motion Effects.....</b>	<b>201</b>
Types of Motion Effects .....	202
Creating Freeze Frames.....	202
Creating Motion Effects.....	206
Review/Discussion Questions.....	210
<b>Exercise 9: Creating Freeze Frames and Motion Effects.....</b>	<b>211</b>
Exercise 9.1: Create a Freeze Frame .....	212
Exercise 9.2: Create a Motion Effect.....	214
<b>Lesson 10: Creating Titles.....</b>	<b>217</b>
Title Creation Tools .....	218
Quick View: The Avid Title Tool.....	219
Review/Discussion Questions.....	224

<b>Exercise 10: Creating Titles .....</b>	<b>225</b>
Exercise 10.1: Create a Title .....	226
Exercise 10.2: Revise a Title .....	229
<b>Lesson 11: Exporting Your Video .....</b>	<b>231</b>
Exporting Your Video.....	232
Review/Discussion Questions.....	237
<b>Exercise 11: Exporting your Sequence .....</b>	<b>239</b>
Exercise 11.1: Exporting your Sequence.....	240
<b>Lesson 12: Technical Fundamentals .....</b>	<b>245</b>
Fixing Technical Problems .....	246
Troubleshooting Missing Media Files.....	246
Recovering Lost Work .....	253
Deleting Media.....	255
Review/Discussion Questions.....	260
<b>Exercise 12: Technical Fundamentals.....</b>	<b>263</b>
Exercise 12.1: Identify Avid Native Media Files.....	264
Exercise 12.2: Hide and Restore Avid Native Media File.....	264
Exercise 12.3: Delete Media Databases .....	265
Exercise 12.4: Identify, Hide and Restore Linked Camera Native Media File.....	265
Exercise 12.5: Restoring a Bin from the Attic .....	266
<b>Index: .....</b>	<b>263</b>

# 110 Fundamentals Course (3 Days)

<b>Introduction.....</b>	<b>xi</b>
<b>Lesson 1: Fundamentals and Beyond.....</b>	<b>1</b>
Fundamental Concepts .....	2
Learning the Basic Workflow .....	4
Going Beyond HD .....	5
Working in 4K.....	6
Creating a New Project.....	7
Setting up a Project .....	10
<b>Exercise 1: Starting a Project.....</b>	<b>13</b>
Exercise 1.1: Creating and Setting Up a Project .....	14
<b>Lesson 2: Inputting Media.....</b>	<b>19</b>
Ways to Input Video and Audio Clips .....	20
Using the Source Browser.....	21
Linking Clips to Your Project .....	23
Importing Media Files.....	25
Importing Sequential Image Files .....	28
Copying and Converting Linked Media .....	30
Review/Discussion Questions.....	36
<b>Exercise 2: Input.....</b>	<b>37</b>
Exercise 2.1: Linking to Media Files.....	38
Exercise 2.2: Transcoding Linked Media Files.....	39
Exercise 2.3: Transcoding a Sequence.....	41
<b>Lesson 3: Preparing Dailies .....</b>	<b>43</b>
Prepping for the Edit.....	44
Adding Information to Dailies.....	44
Sorting the Bin.....	49
Filtering the Bin.....	52
Creating Subclips .....	54
Cloning Clips to Multiple Bins .....	55
Opening a Bin from Another Project.....	56
AutoSyncing Picture and Sound .....	57
Grouping Clips.....	59
Review/Discussion Questions.....	62

<b>Exercise 3: Prepare a Project for Editing .....</b>	<b>65</b>
Exercise 3.1: Syncing Audio to Video by Waveform .....	66
Exercise 3.2: Syncing Clips with Marks.....	69
<b>Lesson 4: Quick Editing Tools .....</b>	<b>75</b>
Editing from the Bin .....	76
Creating a Stringout Sequence .....	76
Storyboard Editing.....	78
Cutting Down a Sequence with Top and Tail.....	79
Using the Extend Function.....	81
Using Markers.....	83
Mapping Buttons and Menus.....	87
Copying and Updating User Settings .....	93
Review/Discussion Questions .....	94
<b>Exercise 4: Quick Editing Techniques.....</b>	<b>97</b>
Exercise 4.1: Creating a Stringout for Review .....	98
Exercise 4.2: Tennessee Parkour Montage .....	102
Exercise 4.3: Improving a Montage with Split Edits .....	107
Exercise 4.4: Map the Keyboard of a New User .....	113
<b>Lesson 5: Cutting and Recutting a Scene.....</b>	<b>115</b>
Review of Basic Edit Tools .....	116
Selecting Multiple Segments .....	120
Alternate Ways to Use Sequences.....	123
Finding Alternative Shots .....	126
Essential Tools .....	131
Review/Discussion Questions .....	136
<b>Exercise 5: Alternative Editing Techniques .....</b>	<b>139</b>
Exercise 5.1: Crafting a Dialogue Scene .....	140
Exercise 5.2: Cutting a New Opening for Anesthesia .....	143
Exercise 5.3: Second Revision of Anesthesia .....	149
<b>Lesson 6: Trimming Dialogue Scenes .....</b>	<b>151</b>
Understanding Trim.....	152
The “Radio Edit” Technique .....	154
Exploring Trim Mode.....	155
Trimming On the Fly .....	161
Creating Split Edits .....	163
Maintaining Sync.....	166
Slipping and Sliding Segments .....	169
Review/Discussion Questions .....	173

<b>Exercise 6: Trim the Dialogue Scene .....</b>	<b>175</b>
Exercise 6.1: Performing a Radio Edit.....	176
Exercise 6.2: Creating Split Edits.....	178
<b>Lesson 7: Mixing Sequence Audio.....</b>	<b>183</b>
Mixing Audio Efficiently .....	184
Setting Up for Audio Mixing.....	185
Audio EQ Tool.....	194
Keyframing Volume and Pan Changes .....	197
Review/Discussion Questions.....	204
<b>Exercise 7: Mix Your Audio.....</b>	<b>207</b>
Exercise 7.1: Replace Music in TN Parkour.....	208
Exercise 7.2: Dialogue Editing in Anesthesia .....	212
Exercise 7.3: Adding Music and Sound Effects to Anesthesia.....	218
<b>Lesson 8: Working with High-Resolution Images.....</b>	<b>225</b>
Understanding Pan & Zoom Effects.....	226
Exploring the Source Settings Dialog Box.....	227
Using FrameFlex on 2K+ Clips .....	230
Creating a Pan and Zoom Effect with FrameFlex.....	232
Review/Discussion Questions.....	235
<b>Exercise 8: Making Corrections to Shots.....</b>	<b>237</b>
Exercise 8.1: Using Frame Flex to Modify Shots in the Timeline.....	238
<b>Lesson 9: Creative Retiming Effects.....</b>	<b>245</b>
Review of Freeze Frames and Motion Effects.....	246
Creating Motion Effects to Fill a Duration.....	248
Creating Timewarp Effects .....	250
Timewarp Preset Effects.....	251
Creating a Timewarp Effect.....	252
Using the Anchor Frame.....	256
Review/Discussion Questions.....	260
<b>Exercise 9: Creative Retiming Effects .....</b>	<b>261</b>
Exercise 9.1: Adding Motion Effects to the TN Parkour Montage .....	262
Exercise 9.2: Using Fit to Fill .....	268
Exercise 9.3: Using Trim to Fill .....	272
Exercise 9.4: Working with Timewarp Effects.....	276
<b>Lesson 10: Tracking and Blurring Objects.....</b>	<b>283</b>
Blurring Unwanted Objects .....	284
Creating a Blur Effect .....	285
Review/Discussion Questions.....	290

<b>Exercise 10: Tracking and Blurring Objects .....</b>	<b>291</b>
Exercise 10.1: Using Tracking with Effects .....	292
<b>Lesson 11: Introduction to Multilayer Effects .....</b>	<b>301</b>
Creating a Split-Screen Effect.....	302
Using Advanced Keyframe Graphs.....	307
Essential Tools .....	312
Review/Discussion Questions.....	316
<b>Exercise 11: Introduction to Multilayer Effects.....</b>	<b>317</b>
Exercise 11.1: Using Multilayer Effects.....	318
Exercise 11.2: Animating a PIP Effect.....	323
<b>Lesson 12: Nesting Multiple Effects .....</b>	<b>329</b>
Nesting Effects .....	330
Changing the Order of Nested Effects.....	332
Editing Inside a Nest .....	333
Measuring Performance.....	334
Adjusting Playback Quality .....	335
Rendering Effects.....	338
Understanding ExpertRender.....	340
Review/Discussion Questions.....	345
<b>Exercise 12: Nesting and Order of Processing .....</b>	<b>347</b>
Exercise 12.1: Nesting Effects .....	348
Exercise 12.2: Editing within the Nest .....	353
Exercise 12.3: Rendering Effects.....	357
<b>Lesson 13: Creating ChromaKey Effects .....</b>	<b>361</b>
Different Keying Types.....	362
Exploring the SpectraMatte.....	363
Viewing the Matte Channel .....	364
Cropping Out Garbage.....	365
Adjusting the SpectraMatte.....	366
Review/Discussion Questions.....	371
<b>Exercise 13: Creating Keying and Matte Composites .....</b>	<b>373</b>
Exercise 13.1: Keying Out a Green Screen Using SpectraMatte .....	374
<b>Lesson 14: Animated Titles &amp; Graphics .....</b>	<b>381</b>
Creating Titles with NewBlue Titler Pro.....	382
Creating a Title .....	383
AMA Linking to Real-Time Moving Matte Keys.....	386
Review/Discussion Questions.....	390

<b>Exercise 14: Creating Animated Titles</b> .....	<b>391</b>
Exercise 14.1: Adding Titles Using NewBlue Titler Pro .....	392
Exercise 14.2: Animating Titles with NewBlue Titler Pro.....	396
<b>Lesson 15: Packaging and Export</b> .....	<b>405</b>
Understanding the Review Process .....	406
Tools for Review .....	407
Preparing for Output .....	412
Packaging a Sequence.....	412
Exporting a File.....	419
Using the Send To Export Templates .....	421
Exporting XDCAM Media .....	424
Review/Discussion Questions.....	427
<b>Exercise 15: Output and Review</b> .....	<b>429</b>
Exercise 15.1: Preparing a Screener Copy of “Anesthesia” .....	430
Exercise 15.2: Preparing “Anesthesia” for Output .....	434
Exercise 15.3: Outputting “Anesthesia” .....	437
<b>Lesson 16: Managing Project Media</b> .....	<b>443</b>
Managing Your Media.....	444
Deleting Media Files.....	447
Understanding Consolidate and Transcode .....	450
Review/Discussion Questions.....	456
<b>Exercise 16: Media Management</b> .....	<b>457</b>
Exercise 16.1: Deleting Render Files Using the Media Tool.....	458
Exercise 16.2: Consolidating Media from the “TN Parkour” Project .....	460
Exercise 16.3: Delete Unused Project Media Files .....	462
<b>Index:</b> .....	<b>463</b>

## Certified Avid Media Composer Training

GeniusDV teaches to current industry trends. We keep the class size to a minimum to ensure that we can give each student extensive individual attention. This insures everyone can absorb a customized experience that will help them succeed in the industry.

GeniusDV's certified Avid Media Composer training class is an in-depth training course that covers editing techniques and effects for Media Composer 8.X The course is designed for video editors and developers of interactive media. The class progresses through all the phases of creating a project, ingesting media, assembling and trimming sequences, editing audio, creating titles, and outputting a finished program.

GeniusDV is unique. Our instructors are not staff. They are professionals that use the software every day. This provides our customers with a special training experience that is outside of outside of a book, After the course, you will always be able to stay in touch with your instructor.

### Training Options Include:

- Live Online Training (Nationwide)
- Portable OnSite Training (Nationwide)
- Physical Classroom (ORL, FL)

Live Online Training

Portable Classroom in Action

### Training Includes:

- Hands-On Exercise Driven Training
- Practice Media and Tutorial
- Certified Courseware
- Access to Ongoing Online Training
- Support that does not expire
- Certificate(s) of Course Completion

GeniusDV Orlando Classroom

## Avid Fundamentals 1 (2 days)

Within first day of class, will learn how the Avid software thinks. This includes learning the Avid's project hierarchy and how clips and sequences link back to raw media files. You will learn why the Avid's proprietary media file system offers an advantage over other non-linear editing systems.

We will teach you the differences between clips, mediafiles, bins, sequences, and projects. We will show you how all these elements function and work together and where they are stored. Within the first day of class, you will learn the skills to be proficient in putting together a sequence.

- Organizing a Project
- Adjusting User Settings
- Importing Media
- Preparing to Edit
- Building a Basic Sequence
- Drag and Drop Editing
- Refining a Sequence
- Mixing Audio Levels
- Using Transition Effects
- Using Segment Effects
- Combining Multiple Effects
- Nesting
- Freeze Frames and Slow
- Motion Effects
- Chroma Key Effects
- Creating Titles
- Exporting Video

## Avid Fundamentals 2 (3 days)

In this course section, you will learn the critical fundamentals of creating effects.

Learn how to create custom transition effects that are easily accessible from the Avid interface.

You will learn how to work with multiple video layers. We'll teach you how to create complex motion paths by creating templates.

Learn how to use video filters. This includes learning about color correction, masks and image paint. We will teach you the critical fundamentals of the tracking system.

- Working with 4K Video
- Advanced Organizational Techniques
- Advanced Editing – Quick Editing Tools
- Trimming Dialog
- Advanced Audio Mixing and Filters
- Working with High Resolution Images
- Color Correction
- Advanced Re-Trimming Effects
- Slow motion
- Tracking and Blurring Objects
- Creating Multi-Layer Effects
- Advanced Nesting
- Chroma Key Effects
- Animated Titles and Graphics
- Managing Project Media
- Output and Review
